Wisdom From a 1st Grader

More People

Get “More Better”

More Often

Your Recovery – Your Move

Medical Practitioners + SUD Peer Mentors = Better Outcomes

Professional intervention is good, but . . .

Social determinants of health and recovery do more.

Mentors trained in MI and SBIRT

Engage patients at bedside

Engage families and support systems

Provide warm hand-offs

Meet patients where they are

Develop strength-based, self-directed recovery plans.

YOUR
recovery

YOUR
life

YOUR
way!

A man in profile, looking thoughtful, with his hand to his chin, sitting at a desk with a laptop. The scene is dimly lit, with a blue glow from the laptop screen illuminating his face and hand. The background is dark, suggesting a late-night setting.

We strive to
*“meet people
where they’re at”*
which includes their
living rooms at 2 am.
